Special mention must go to **"Remy"** on the release of **'My Breath My Music'**, offering people with severe disabilities a possibility of making music with the Magic Flute, a special developed instrument allowing them to perform live electronics, more details on his website: [www.breathmymusic.com](http://www.breathmymusic.com)

To round off whats on offer, we have another album track from **"Levente Toth"**, a tribute to the tragic accident of those astronauts killed in the space shuttle Colombia :the oriental mystical music of **"Kamarius"**: the dark ambient sound of **"Dave Smith"**: the influences of Jarre and Kraftwerk on **"Kevin Lux's"** album **'Zenith'** : another storming track from **"Brent Allen Scott"** :Frenchman **"Bertrand Loreau"** comes up with a Berlin school sounding release, **'Nostalgic Steps'** : creative artist, photographer, and experimental musician **"Vigor Calma"**, :from the Stateside the space cowboy**"Tony Gerbers"** short lived project **"Auroric Dreams"** and finally what Mick would call the wandering minstrel and well travelled enthusiastic E.M geek, **"Phil Booth"**, teams up with **"Xan Alexander"** for the group called **'The Grey Encounter'**.

And now, as we've said before, this guy need no introduction, a gentleman and a exceptional musician is **"John Dyson"**, and with the sadly missed **"Dave Ward Hunt"**, came up with the all time classic critically acclaimed album **'Moonwind'** in 1987, naming their group ;**Wavestar'**, they blew away the competition with their lively stage shows, Enjoy a nostalgic trip with, **'Voyager.'**
